ABOUT ME

I am a Computer Science Engineering graduate and an enthusiastic full-stack developer with a strong focus on building responsive, user-friendly applications using React and modern web technologies. I have hands-on experience through internships and freelance work. I follow clean code practices and value performance and scalability in web solutions. Currently exploring Generative AI, I am actively seeking a full-stack developer role where I can grow, contribute to impactful projects, and work with innovative teams.

SKILLS

- **Programming Languages:** Python, JavaScript, Typescript, Java, SQL.
- **Frontend Frameworks:** HTML, React.js, Next.js, React Native, Tailwind CSS.
- **Backend Frameworks:** Node.js, Express.js, REST APIS, GraphQL, OpenTelemetry.
- **Databases and ORM:** DBMS, PostgreSQL, MongoDB, PrismaORM, Firebase.
- **Cloud and DevOps:** AWS, Docker, Kubernetes, Cloudflare Workers.
- **Tools and Platforms:** Git, Github, Postman, Figma, Vercel.
- **Core Concepts:** DSA, OOP, System Design, Clean Code.
